

# Contents

Foreword .....	11
Know the fruit trees .....	13
Foreword of the Responsible for Publications of ISHS .....	15

## Chapter 1

### Tree structure

Summary .....	17
1.1. Introduction .....	17
1.2. Root system ( <i>A. Fabbri</i> ).....	17
1.3. Epigeal structures ( <i>E. Barone</i> ).....	27

## Chapter 2

### Endogenous and environmental signals regulating tree development

Summary .....	41
2.1. Introduction ( <i>G. Costa, A. Ramina</i> ).....	41
2.2. Endogenous signals ( <i>G. Costa, A. Ramina, A. Botton, A. Masia</i> )....	42
2.3. Exogenous signals ( <i>G. Costa, A. Botton, A. Ramina</i> ) .....	47
2.4. Bioregulators and plant hormone balance ( <i>G. Costa, A. Ramina</i> ) .....	56

## Chapter 3

### Tree functions

Summary .....	59
3.1. Light reactions: quality and quantity of radiation ( <i>L. Corelli Grappadelli</i> ) .....	59
3.2. Carbon assimilation ( <i>R. Gucci</i> ) .....	65
3.3. Partitioning, transport and utilization of non-structural carbohydrates ( <i>R. Gucci</i> ) .....	71
3.4. Physiology of mineral nutrition ( <i>M. Tagliavini</i> ).....	78
3.5. Plant stress physiology ( <i>B. Dichio</i> ).....	82
3.6. Other biochemical functions in leaves ( <i>A. Masia</i> ).....	89

## Chapter 4

### Tree life cycle, architecture, and correlative functions

Summary .....	97
4.1. The ontogenetic cycle of the tree ( <i>G. Costa, A. Ramina</i> ) .....	97
4.2. Tree architecture ( <i>G. Costa, A. Ramina</i> ) .....	98
4.3. Related functions ( <i>G. Costa, A. Ramina</i> ).....	102
4.4. Regulation of tree vigor ( <i>G. Costa, A. Ramina</i> ) .....	105

## Chapter 5

### Tree ontogenesis

Summary .....	107
5.1. From seed germination to plant physiological maturity ( <i>S. Morini, R. Massai</i> ).....	107
5.2. Flowering, sporogenesis, pollination and fertilization ( <i>R. Botta, S. Sansavini, A. Ramina, A. Fabbri</i> ) .....	113
5.3. Seed and fruit development ( <i>D. Bassi, G. Costa, A. Ramina, G. Vizzotto, A. Botton</i> )	129
5.4. Fruit ripening ( <i>C. Bonghi, G. Costa, P. Tonutti, A. Botton</i> ) .....	137
5.5. Fruit quality and postharvest ( <i>P. Tonutti</i> ).....	147

## Chapter 6

### Tree breeding in horticulture: fundamentals and case studies

Summary .....	153
6.1. Tree breeding in horticulture: basic concepts ( <i>D. Bassi</i> ) .....	153
6.2. Tree breeding in horticulture: main aims ( <i>D. Bassi</i> ) .....	155
6.3. Tree breeding programs and germplasm exploitation ( <i>D. Bassi, S. Sansavini</i> ).....	156

6.4. Tree breeding methods ( <i>D. Bassi, R. Testolin</i> ) .....	165
6.5. Releasing new fruit tree cultivars ( <i>D. Bassi, S. Sansavini</i> ) .....	171

## Chapter 7

### Biotechnologies

<b>Summary</b> .....	173
7.1. Molecular genetics applied to breeding ( <i>R. Testolin</i> ) .....	173
7.2. Genetic transformation and its potential ( <i>A. Gentile, B. Mezzetti, E. Rugini</i> ) .....	179
7.3. Further biotechnological approaches to fruit breeding ( <i>A. Gentile, B. Mezzetti, E. Rugini</i> ) .....	186
7.4. Perspectives ( <i>A. Gentile, B. Mezzetti, E. Rugini</i> ) .....	189

## Chapter 8

### Propagation

<b>Summary</b> .....	191
8.1. Seed propagation ( <i>F. Loreti</i> ) .....	191
8.2. Vegetative propagation ( <i>F. Loreti</i> ) .....	194
8.3. <i>In vitro</i> propagation ( <i>S. Morini</i> ) .....	203
8.4. Grafting ( <i>P. Fiorino</i> ) .....	209
8.5. Other agamic propagation methods ( <i>P. Fiorino</i> ) .....	217

## Chapter 9

### Nursery production and management

<b>Summary</b> .....	221
9.1. Deciduous species ( <i>T. Caruso, D. Neri</i> ) .....	221
9.2. Specialized aspects ( <i>R. Di Lorenzo, S. Morini</i> ) .....	227
9.3. Evergreen species ( <i>T. Caruso, A. Gentile</i> ) .....	229

## Chapter 10

### Environmental conditions

<b>Summary</b> .....	233
10.1. Environmental conditions, cultivation area and cultivar choice .....	233
10.2. Climate and its components .....	234
10.3. Evaluation of soil and land .....	241
10.4. Land suitability classification and mapping .....	242
10.5. Environmental variability and regional products .....	244
10.6. Climate change and its impact on tree crops .....	245

## Chapter 11

### Fruit tree orchard establishment

<b>Summary</b> .....	251
11.1. General aspects of fruit orchard establishment ( <i>P. Inglese</i> ) .....	251
11.2. Hydrological management, water table control and other pre-planting operations ( <i>P. Inglese</i> ) .....	253
11.3. Orchard design and tree planting ( <i>L. Sebastiani, L. Corelli Grappadelli</i> ) .....	255
11.4. Protected fruit production ( <i>P. Inglese, L. Corelli Grappadelli, L. Sebastiani</i> ) .....	263

## Chapter 12

### Planting and training systems, pruning and fruiting control

<b>Summary</b> .....	267
<b>General part</b>	
Theoretical and practical principles – Physiological understanding ( <i>D. Neri, S. Sansavini</i> )	
12.1. Evolution of fruit tree orchards .....	267
12.2. Definition and objectives of pruning .....	268
12.3. Architecture of fruit trees .....	269
12.4. Pruning .....	271

12.5. Training systems .....	275
12.6. Planting design and orchard systems: density and distances.....	279
12.7. Bearing pruning.....	290
12.8. Green pruning and pruning periods .....	291
12.9. Mechanical pruning.....	292
12.10. Root pruning.....	294

**Special section**

Training and pruning of individual species

12.11. Apple ( <i>S. Sansavini</i> ).....	294
12.12. Pear ( <i>S. Sansavini</i> ).....	297
12.13. Peach ( <i>D. Neri</i> ).....	299
12.14. Grapevine training systems ( <i>C. Intrieri</i> ).....	305
12.15. Olive ( <i>A. Tombesi</i> ).....	310
12.16. Citrus training systems ( <i>G. Continella</i> ).....	313
12.17. Thinning and other practises for fruit load control ( <i>G. Costa, A. Ramina</i> ).....	314
12.18. Fruit harvesting ( <i>S. Sansavini, G. Costa</i> )....	317

**Chapter 13**

**Water relations and irrigation**

<b>Summary</b> .....	<b>321</b>
13.1. Root uptake and plant water flow ( <i>B. Dichio</i> ).....	321
13.2. Stomatal control of transpiration ( <i>R. Gucci</i> ).....	323
13.3. Irrigation method and management selection criteria ( <i>B. Dichio, C. Xiloyannis</i> ) .	324
13.4. Canopy architecture and water use efficiency ( <i>C. Xiloyannis, B. Dichio</i> ).....	335
13.5. Irrigation and yield quality ( <i>R. Gucci, S. Poni</i> ).....	336
13.6. Irrigation and environmental impact ( <i>C. Xiloyannis, B. Dichio</i> ).....	337
13.7. Irrigation and frost protection ( <i>R. Massai, C. Xiloyannis</i> ).....	338
13.8. Maintenance of irrigation systems ( <i>C. Xiloyannis, R. Massai</i> ).....	339

**Chapter 14**

**Mineral nutrition**

<b>Summary</b> .....	<b>341</b>
14.1. Nutrient requirements ( <i>M. Tagliavini</i> ) .....	341
14.2. Criteria for determining nutrient supply ( <i>M. Tagliavini</i> ) .....	343
14.3. Diagnosis of the tree nutritional status ( <i>O. Failla</i> ).....	345
14.4. Nutritional excess and deficiency symptoms ( <i>O. Failla</i> ).....	347
14.5. Fertilizer application techniques ( <i>C. Xiloyannis</i> ).....	348

**Chapter 15**

**Soil management**

<b>Summary</b> .....	<b>357</b>
15.1. The soil system ( <i>C. Ciavatta</i> ).....	357
15.2. Physical and chemical soil properties: texture, reaction, cation exchange capacity, total and active carbonates, salinity, redox potential ( <i>C. Ciavatta</i> ).....	358
15.3. Correction of physical and chemical properties ( <i>C. Ciavatta</i> ) .....	363
15.4. Organic matter: agronomical and environmental functions ( <i>C. Ciavatta</i> ) .....	364
15.5. Microbial biomass and soil enzymes: engine of soil fertility ( <i>C. Ciavatta</i> ).....	367
15.6. Total and bioavailable nutrients ( <i>C. Ciavatta</i> ).....	368
15.7. Soil-plant-atmosphere continuum ( <i>C. Xiloyannis</i> ).....	369
15.8. Ecological principles of soil management: techniques to help carbon accumulation in agricultural soils ( <i>R. Di Lorenzo, C. Intrieri, C. Xiloyannis</i> ).....	370
15.9. Soil sampling ( <i>C. Ciavatta</i> ).....	382

**Chapter 16**

**Multifunctional arboriculture**

<b>Summary</b> .....	<b>385</b>
16.1. Multifunctionality of arboricultural systems ( <i>G. Bounous, G. Barbera</i> ).....	385
16.2. Urban arboriculture ( <i>F. Ferrini</i> ).....	398
16.3. Timber plantations ( <i>F. Magnani, G. Minotta</i> ).....	411
<b>On the editors</b> .....	<b>419</b>
